PRICE TWO CENTS

## Butter and Eggs

constitutes one of our specialties. We're very proud of our butter reputation. Our eggs are as fresh as though just brought in from your own henhouse. We get them daily from nearby poultry farms. Every egg is warranted. Dairy butter is made solely for our trade. We know just how this butter is made; we know the makers well. We have dropped in on them unexpectedly and examined their methods at a time when they could make no preparations to receive us. We always find everything spick and span; they use the richest of sweet cream; result, the butter is perfect. And it's always the same. In 5 and 10 pound jars. This week it's selling at 20c a pound. Eggs are 15c a dozen.

## Fresh Fruits and Vegetables this week

The list is growing as summer comes on. Peaches, plums, cherries, oranges, bananas, strawberries, lettuce, radishes, onions, spinach, peas, beans, tomatoes, new potatoes and asparagus.

## Meat Market

We make the best home made sausages in the city, always fresh also home made lard.

Hams, per lb. 12½c  
Bacon, per lb. 12½c

Fine beef, veal, mutton, pork and fresh fish.

## ROME VERSUS PARIS.

When the Eternal City Was the Art Center of the World.

There was a time when Rome was the world's art center. No artist's education was considered complete unless he spent some time in that city. There was always to be found there a coterie of strong men, many of them famous, in whose society the tyro might mingle and gain much by the companionship. That day has gone by, however, and a change has taken place. Paris has usurped the prerogative of the old city, and it is to her that the world now turns for new ideas of art. The Italian galleries remain, the masterpieces hang in their accustomed places, the sky is as blue, the air as soft and the outlook as lovely, but the glory of Roman art life has departed. The humanity that gave the art impetus, the interest to the student, has betaken itself from the Seven Hills to the peaceful Seine, where it flourishes in the wilder, more luxuriant growth, nurtured by the hothouse forcing of fin de siècle ideas, untrammelled by convention or tradition. For good or bad—and the judgment must be left to the reader—the fact remains that today Paris is the hub about which the wheel of art revolves.

Yet from Paris there go annually to the Italian capital a number of young men, winners of the annual competitions for the prize of Rome, to spend four years in the most idyllic manner as guests of the French republic at the Villa Medici, a beautiful palace owned by the government and specially arranged for their reception. These men have not won their spurs without hard work, without great preliminary training and many struggles.—Arthur Hoeber in Century.

## DELAY WILL BE BRIEF

RUSSIA WAITING FOR JAPAN TO FIX TIME AND PLACE FOR ENVOYS TO MEET.

MIGHT EVEN PAY INDEMNITY

CZAR'S GOVERNMENT WILLING TO SWALLOW BITTER PILL IF IT IS SUGAR COATED.

St. Petersburg, June 12.—Russia is waiting for Japan to fix the time and the place when and where the Japanese terms will be placed in the hands of Russia's representatives. The foreign office expects that the delay will be brief. The emperor's government would prefer that Paris should be the scene of the initial step, but it is explained to the Associated Press that neither the place nor the personality of the Russian representative matters greatly. The Russian representative will not be a plenipotentiary with full power to negotiate. His duty will practically be confined to the reception and transmission to his government of the Japanese terms for decision as to whether they afford a basis for actual peace negotiations. He will be clothed with power to effect an agreement for the suspension of hostilities, which suspension will probably be for a very limited period, during which Russia must decide the momentous question of peace or a prolongation of the war. During this temporary armistice both countries probably will be free to continue the movement of troops and munitions of war within prescribed limits, although nothing definite on this point will be known until the meeting takes place.

If Russia finds that the terms are on a basis on which negotiations can proceed, regular plenipotentiaries will be appointed, the number being decided by the belligerents themselves, and then it is not impossible that the negotiations might be transferred to Manchuria, as President Roosevelt is believed to have suggested.

### Russian Plenipotentiaries.

It is stated at the foreign office that the question of plenipotentiaries has not yet been officially considered, but it is regarded as almost certain that Baron Rosen, the ambassador to the United States, on account of his long and intimate acquaintance with far Eastern affairs, besides his familiarity with the Japanese, will be selected.

George de Stahl, former Russian ambassador to London and who was president of the peace conference at The Hague in 1899, might be another, although his advanced age and the fact that he has been for some years out of touch with active diplomacy, might militate against him. The number of plenipotentiaries would be a matter of mutual agreement, though Russian precedents lean to two.

President Roosevelt also might be of service in arranging these preliminaries, but Russia would be disposed to accept all questions after the first meeting directly with Japan.

While proffering all the aid in his power, it is well understood here that the president, having served to bring the representatives of the warring countries face to face, believed it would be to the best interests of all concerned that he step aside.

The United States, it is recognized here, desires to keep all the powers out of temptation when the spoils of war come to be divided and this position is considered to be the logical sequence of the pledges secured by Secretary Hay at the opening of the conflict.

### Kaiser Supported Roosevelt.

The statement that Emperor William warmly supported President Roosevelt's efforts is confirmed and the German emperor not only heartily approves the president's course, but may have his share in it as he did in the case of Secretary Hay's note to the powers. Secretary Hay's action has been endorsed by practically all the European powers, notably France, Great Britain and Italy, and the fact that both belligerents now understand the solidarity of the powers in the view that the time has come to end the lamentable struggle imposes a moral pressure upon both which will compel them to come to terms or face the disapprobation of the civilized world. Too much credit for the president's diplomatic triumph cannot be bestowed on Ambassador Meyer, who handled the Russian end with consummate skill.

President Roosevelt, through Ambassador Meyer, has sent a personal message of thanks to Emperor Nicholas for the reception of his appeal.

In diplomatic circles here it is felt that Great Britain can now play a great role in seconding the president's initiative by restraining her ally and counselling moderate terms.

Harsh and humiliating terms would not be accepted, and for that reason diplomatic circles express the great

est skepticism as to whether Japan, elated by her wonderful victories, will be reasonable enough to offer a basis which Russia can possibly accept. If at the end Russia was forced to humble herself in the dust, her ignominy would spur her to seek revenge, as Alsace-Lorraine did from France for many years.

There is an infinite amount of gossip here about Japan's terms, but it is almost altogether irresponsible, the best informed members of the diplomatic corps, even the British embassy, being convinced that while the main outlines are matters of common knowledge, Japan has not revealed her exact terms even to her ally.

Russians not likely to be recalcitrant. According to the best advice she is ready to abandon the whole of her Manchurian venture and give guarantees. The rub will come on the question of indemnity, which, it is the consensus of opinion in diplomatic circles, Japan will exact, but if it should be made moderate and sugarcoated so that it could be liquidated by the sale of the Chinese Eastern railway and the cession of Russian property and leases in the Kwantung peninsula, it might be overcome. Russia will probably insist on holding the railway to Vladivostok through Northern Manchuria and will never submit to the humiliation of disarmament of her only port in the Pacific ocean, nor to the inhibition against having warships in those waters.

Members of the diplomatic corps feel that Japan's status in the Pacific is so firmly established that she can afford to dispense with the exaction of so bitter a condition. Though the feeling against a cession of actual territory is strong, the island of Sakhalen might be ceded, or as an offset to the cession of that island, all fishing and other Russian rights in the Kommander islands might be handed over to Japan.

In spite of official dubiousness as to the result, a well defined report was current everywhere during the day that Russia had already practically obtained Japan's conditions and that they proved so surprisingly moderate that Russia would certainly accept them as a basis for negotiations.

### AWAITING FINAL RESULTS.

Japs Calmly Receive News of Proposed Peace Conference.

Tokio, June 12.—Tokio has calmly received the news of American intervention and prospective peace. The absence of assurance that Russia will accept President Roosevelt's proposal, and the knowledge that the final consummation of peace involves the adjustment of a series of questions of paramount importance, requiring the most careful diplomacy, extending over weeks of negotiation, coupled perhaps with the recollection of a previous experience in the thorny path of the world's politics, seem to create a disposition to await final results. There is, nevertheless, the keenest satisfaction over the preliminary step and a feeling of deep gratefulness over President Roosevelt's action.

There is also genuine thanksgiving at the thought that the carnage and horror and waste of war will soon end and a genuine hope that the negotiations will bring a satisfactory and enduring peace.

President Roosevelt's instructions to American Minister Griscom were delayed in transmission and did not reach the legation until late Saturday afternoon.

### Censor Barred Press Messages.

An Associated Press message on Thursday brought the earliest public intimation of prospective peace negotiations, but pending the receipt of the formal message from President Roosevelt and the transmission of Japan's response, the censor refused to allow the transmission of press telegrams bearing on the subject. All information was withheld from the public until 6 o'clock Sunday night, when the foreign office issued a statement containing President Roosevelt's letter and Foreign Minister Komura's response, and newsboys were quickly on the street of the capital with extra editions of the newspapers.

The Japanese plenipotentiaries to arrange terms of peace are already discussed. The names of Marquis Ito, Premier Katsura, Foreign Minister Komura, Marquis Yamagata and others are being suggested for possible heads of the commission.

Popular estimates of Japan's terms of peace vary widely and include both indemnity and cession of territory. It is believed that the peace commissioners will meet somewhere in the Orient.

It seems to be the popular fear that Japan will sacrifice the advantages of Admiral Togo's victory as well as Field Marshal Oyama's opportunities by consenting to an armistice now. It is felt that Togo's victory opens the entire Russian Pacific coast to invasion and that Oyama is capable of speedily taking Harbin, cutting the railway and isolating Vladivostok.

### Goll to Plead Not Guilty.

Milwaukee, June 12.—Henry G. Goll will appear in the United States district court Monday and when the indictments charging him with complicity in the defalcation of funds from the First National bank are read will enter a plea of not guilty.

## SWEDEN IS OBDDURATE

PREMIER RAMSTEDT SAYS SHE WILL NOT RECOGNIZE REVOLUTION IN NORWAY.

### OFFER PRAYERS FOR KING

NORWEGIANS ALSO THANK OSCAR FOR HIS PAST SERVICES TO THEIR COUNTRY.

Stockholm, June 12.—Premier Ramstedt, in an interview, says the Swedish government will refuse to recognize the revolution in Norway and will submit to the riksdag motions conformable to this standpoint.

The premier thinks that the riksdag will adopt this view and is convinced that no foreign power will recognize Norway as an independent country against the will of Sweden.

### PRAY FOR KING OSCAR.

Norwegians Also Thank Him for His Services.

Christiania, Norway, June 12.—Prayers were offered in all the churches Sunday not only for the fatherland, but for King Oscar with thanks for what the king had done for Norway.

Dr. Fridtjof Nansen in an interview expressed his personal opinion that a republic would be as convenient a form of government for a democratic country like Norway as a monarchy, but said that something was due to the feeling of other Scandinavian countries, which were accustomed to a monarchical form of government.

### RETURNS TO WASHINGTON.

President Roosevelt Back Home After Visit to Virginia.

Washington, June 12.—After a two day's sojourn with Mrs. Roosevelt at the picturesque little woodland home recently purchased by her near Charlottesville, Va., the president returned to Washington at night. Accompanied by Mrs. Roosevelt, he arrived at the Pennsylvania station at 9:50 p. m. via the Southern railway. He and Mrs. Roosevelt entered their carriage, which was in waiting, and were driven directly to the White House.

As they entered the house they were greeted cordially by Secretary Taft and Secretary Loeb, who were awaiting their arrival. The president was in excellent spirits, evidently having enjoyed his outing immensely. As he grasped Secretary Taft's hand in a

heartily clasp, he inquired, facetiously, "Are you still sitting on the lid?" The secretary assured the president that the lid was still down.

After a discussion of developments since the president's departure on Friday, the conference lasting about half an hour, Secretary Loeb authorized the announcement that nothing concerning negotiations for peace in the far East would be made public at night.

It is not possible at this time to indicate when the formal replies from Russia and Japan to the president's identical notes will be given to the public.

The formal peace conference, the probabilities now are, will be held in Washington.

### GREEKS AND BULGARIANS CLASH.

Latter Suffer the Heavier Losses in Two Serious Encounters.

Salonica, European Turkey, June 12.—In the fighting at Pantchatin, near Vodela, on June 2, it is said that the Greeks lost three killed, while the Bulgarians lost twenty-eight killed or wounded, besides seventeen prisoners, who were executed by the captors.

On June 3 in a fight at Libad, west of Gumendja, three Greeks and sixteen Bulgarians were killed. The Bulgarians would have been annihilated but for the timely arrival of Turkish troops.

There is constant skirmishing in this district between Bulgarians and Turkish troops. The latter number 900.

### Heavy Damage From Water.

New York, June 12.—A break in the 48-inch high pressure water main in Park avenue near Forty-second street resulted in the flooding of the block just below the Grand Central station, the street car tunnel and the subway, the stoppage of traffic in the subway for many hours, serious damage to the underground road and great danger to many passengers. The damage is estimated at \$100,000.

### JOINT EXERCISES BEGUN.

Army and Navy Start Them on Atlantic Coast.

Fort Monroe, Va., June 12.—The joint army and navy exercises began at midnight. Rocket signals were sent up at Fort Monroe, the guns were manned and searchlights flashed across the waters of Hampton Roads. No trace of the fleet of sixteen warships under Rear Admiral Dickins was visible and there was nothing unusual to indicate the tension that had suddenly been placed on the garrison. There was no information available as to the location of the fleet and nothing to show whether Admiral Dickins is to attack here or at Baltimore or at Washington first.

### ONE LIFE PROBABLY LOST.

Fire at Kokomo, Ind., Wipes Out a Glass Plant.

Kokomo, Ind., June 12.—One life believed to have been lost, \$150,000 damages and 225 men bereft of employment is the result of a fire of unknown origin which destroyed the local plant of the National Flint Glass company, known as the Jenkins factory, with \$25,000 worth of stock, in the extreme south portion of this city. The loss is covered by insurance.

Two firemen were severely injured by falling walls. Roy Harbert, who went to work at the factory, is unaccounted for.

### FATAL SHOOTING AFFRAY.

Three Men Killed and One Mortally Wounded Near Palmetto, La.

Palmetto, La., June 12.—Quite a sensational shooting occurred near here Sunday in which three men were killed and one mortally wounded. The killed are: Tom Carroll, Oscar Fredericks and John Magee.

Mortally wounded: Constable F. A. Solleau.

The cause of the trouble is supposed to have been long standing ill-feeling between Carroll and Constable Solleau.

## ON THE BOWEN-LOOMIS AFFAIR.

W. W. Russell Makes a Statement to Secretary Taft.

Washington, June 10.—In the presence of Assistant Secretary of State Loomis and Minister Bowen, Secretary Taft during the day heard a statement from W. W. Russell, the American minister, who has been transferred from Bogota to Caracas and who was secretary of legation under Mr. Loomis when the latter was minister to Venezuela, regarding matters connected with what is known as the Bowen-Loomis controversy. The inquiry was concerning chiefly the Mercader claim and Mr. Loomis' connection with it. The testimony of Mr. Russell was not of a sensational character. Its effect on the case cannot be learned at the war department. At the close of the conference Minister Bowen filed the following request:

"I now have the honor respectfully to suggest that if any doubt remains in your mind as to the culpability of Mr. Loomis, I be ordered to return to Caracas and with Captain Parker and Consul Hurst, I be instructed to take the testimony of all and any persons acquainted with the facts in the case and be provided with letters requesting Mr. Loomis' bankers and the Venezuelan government to give me certified copies of any papers that may tend to prove the nature of Mr. Loomis' transactions while he was minister to Venezuela."

Secretary Taft has not yet acted upon this request.

## DYMOND CHOSEN PRESIDENT.

New Orleans Man at Head of National Editorial Association.

Guthrie, Okla., June 10.—At the annual session of the National Editorial association here, John Dymond, New Orleans, was elected president. Indianapolis was chosen as the place of meeting in 1906.

The convention adjourned in the afternoon and the delegates left Guthrie at night on a trip, during which they will visit Portland, Ore., Texas and California.

Resolutions were adopted in favor of immediate statehood for Oklahoma and Indian Territory.

Resolutions were also passed declaring against the proposed general strike of the International Typographical union on Jan. 1, 1906, on demands for an eight-hour day with nine-hour wages. This action, if carried out, the resolution asserted, would be "revolutionary and demoralizing in its effect on business conditions."

## THE DIFFICULT TASK.

Combining the Particular Man's Hair with the Barber's.

"Do you know, one of the most difficult things in this business," said the barber as he ran the comb through the hairbrush, "is in the matter of combing a customer's hair? It is a rather singular fact that you will find few barbers who have succeeded in solving the problem of combing a customer's hair just as he wants it, no matter how long the man may have been a patron of his chair. Of course there are a few exceptions to this rule. There are a few men in the world who do not care whether their hair is combed at all. With this class of men of course it doesn't make much difference how the barber combs the hair. But at least ninety out of every hundred men who patronize barber shops are very particular about the way you comb their hair unless you have inspired them with an extraordinary confidence. Unless, in fact, they have a better opinion of the barber's judgment than they have of their own the barber will miss the mark when he comes to put the finishing touches on the hair. The reason for this is not altogether a matter of vanity. There are a great many men whose looks are completely altered by a change in the way the hair is combed. Take the man, for instance, who is in the habit of parting his hair on the side, and part it in the middle, or the man who is in the habit of combing his hair down and parting it on one side—suppose you reach or pompadour the hair—can you not see what changes would follow in the general appearance of the man? This fact has much to do with making the combing of a man's hair a matter of much difficulty, and I do not exaggerate when I say it is one of the barber's hardest tasks."—New Orleans Times-Democrat.

## Madagascar Etiquette.

A French conjurer many years ago during a performance at the court of Madagascar asked the queen through an interpreter if she would taste a glass of wine. On her refusal the conjurer, with simulated anger, emptied the glass over her, and the contents dropped in the shape of a rose into her majesty's lap. The court functionaries were so indignant at this proceeding that they jumped up from their seats, insisted upon the queen leaving the apartment and charged the performer with high treason. The unfortunate man had to be protected by the native troops from the fury of the populace and was compelled to leave the capital before daybreak.

## Fooled.

A regiment of soldiers was drawn up for church parade in the barnack square, but the church was being repaired and could only hold half of them.

"Sergeant-major," shouted the colonel, "tell all the men who don't want to go to church to fall out on the reverse flank."

Of course a large number quickly and gladly availed themselves of the privilege.

"Now, sergeant-major," said the colonel, "dismiss all the men who did not fall out and march the others to church; they need it most."—London Standard.

## AGNES MYERS FOUND GUILTY.

Missouri Woman to Be Executed for Killing Her Husband.

Liberty, Mo., June 12.—The jury which has been sitting for the past week in the case of Agnes Meyers of Kansas City, charged with the murder of her husband, Clarence Meyers, Sunday returned a verdict of guilty of murder in the first degree. This verdict means that the death penalty by hanging is to be inflicted.

The crime for which Mrs. Meyers was convicted was one of the most atrocious ever committed. According to the story of her paramour, Frank Hottman, who confessed to being an accomplice with Mrs. Meyers in the murder of her husband, the crime was premeditated and was executed in the most brutal manner. Hottman was tried last February for the crime and was convicted and is now awaiting the death penalty.

## FLOOD SLOWLY RECEDING.

Damage to Farmers in Iowa From High Water Very Heavy.

Des Moines, Ia., June 12.—The flood which overflowed thousands of acres of land in the vicinity of Keokuk, is slowly receding, the water having fallen about two feet since Saturday night. Damage to farmers near Keokuk is estimated at \$300,000 and the loss in Keokuk, Davenport and at other places along the river will aggregate thousands more.

Riley Smallwood, aged seventy-six, was drowned near Alexandria in attempting to ford a swollen stream in his wagon.

## COSTLY FIRE IN TEXAS.

Packhouse Plant Valued at \$450,000 Destroyed.

Fort Worth, Tex., June 12.—What is known as the old packhouse plant in Fort Worth, comprising eight buildings, was destroyed by fire Sunday. The plant cost something like \$450,000. The insurance is estimated at \$84,000. With the building was consumed most of the contents. The plant was the property of the Southwestern Mechanical company.

## TELEGRAPHIC BREVITIES.

Carl von Friesen, Swedish minister of education and ecclesiastical affairs, is dead.

John H. Eagle, aged ninety years, who, it was thought, was the oldest printer in the United States, died at Indianapolis Sunday.

Honorable George E. Seney, congressman from the Tiffin, O., district from 1883 to 1891, died of heart failure at Tiffin Sunday.

The Grand Prix of \$40,000 was won easily at Longchamps, France, Sunday by Michael Ephrussi's Finasseur, with Nash Turner, the American jockey, up.

Twenty-five thousand delegates and visitors from various states attended the annual love feast of the national German Baptist convention at Flora, Ind., Sunday.

The annual convention of the International Association of Marbleworkers of the United States and Canada adjourned at Rutland, Vt., Sunday. J. F. Carter of Rutland was elected president.

## The Average Storm Wave.

The average storm wave is thirty feet in height. The highest storm waves ever measured were between forty-four and forty-eight feet high. The gigantic force of storm waves is shown by the fact that at Skerryvore lighthouse, off the west coast of Scotland, a mass of rock weighing five and a half tons was once hurled to a height of seventy-two feet above the sea level, while a mass weighing thirteen and a half tons was torn from a cliff seventy-four feet high.

## Lucrezia Borgia.

Lucrezia Borgia was a singularly beautiful woman, with gray eyes and yellow hair. It was said of her that her upper eyelids drooped over more than half the iris, so as to give the eye a languid expression. She had a peculiar trick of looking steadily sideways at those with whom she conversed, and this peculiarity invariably excited distrust in those who observed it. She was singularly gifted in conversation and repartee and could hold her own in any company.

## TWENTY DOGS WERE POISONED

Valuable Dogs Put Out of Existence by Some Mean Cuss During the Night

## REWARD OFFERED BY OWNERS

Seem to Have Taken a Strip from North End to South End of the City.

Some disreputable cuss perpetrated a mean trick last night that may cost him something before he gets through with it. Something like twenty valuable dogs were poisoned by some one and from the manner in which the poison was scattered about it is sure that the deed was committed with malice and intent. Among those who lost dogs are many prominent people in the city and they are up in arms over the matter.

A reward of \$100 has been offered for information that will lead up to the conviction of the guilty parties.

## VAUDEVILLE MAKES HIT.

Brainerd Opera House Well Filled on Saturday Evening at the Opening of the Vaudeville Season.

Brainerd opera house patrons, thanks to the forethought and managerial ability of C. P. Walker, general manager of the Walker Theatre company, were given the first taste of refined high class vaudeville on Saturday afternoon and evening, and this new diversion in the way of entertainment made a decided and instantaneous hit.

Refined vaudeville had been contemplated by Manager Walker for some time and he has made arrangements with the Orpheum Vaudeville company to put on a new bill each week during the summer months. The night that Brainerd gets the performance is Saturday, but this week on account of the conflicting dates in Fargo, there will be two nights and a matinee, Friday and Saturday with the matinee on Saturday afternoon. Throughout the summer the prices will remain the same, and who is there that can say one reflecting word against the bill which was offered on the opening day here.

For instance the "Five Hewettes" in their musical acts were given an ovation and were obliged to respond to repeated encores. Marshall & Ervin the pleasing comedy duo, "Diamond Cut Diamond" brought down the house, and Miss Ervin in illustrated songs carried the audience into a furor of enthusiasm. Ethel Whitesides and her pickaninies made a decided hit and as the acts succeeded each other in rapid succession the enthusiasm grew apace. Sanford & Darlington in "fifteen minutes of vaudeville" was the opening number and there was nothing to it but refinement and a hilarious sufficiency. The whole ten acts given included a program of rare merit and it is thought that this new form of amusement will find hearty support in this city.

The program of the evening opened and closed with moving pictures by the Edison Kenetoscope, which were fine. "Wanted A Dog" was a hummer and brought down the house.

An entire change of bill will be presented on next Friday and Saturday evenings at the Brainerd opera house.

## TAKE SECOND FROM TIGERS

St. Brainerd Team Did Great Work in the Series With the Grand Forkers in this City.

It may have rained Saturday so that there could be no game of ball, but in the game yesterday there was also rain, but it was rain of a different specie. There is a man by the name of Converse who has been tried out in the big yards down in the twin cities as a deliverer of the deceptive curves and it has even been intimated in an off handed way that he had the goods in the "spit ball" line. If this youngster ever had aspirations that he could pitch they were jolted somewhat yesterday in the game played between the St. Brainers and Grand Forks. During the game the Twins connected with Converse for seventeen hits. Converse several times during the game went down into his "dope pot" and tried to find something new, but it only kept him more up in the air and he reminded one of the great picture "At Bay."

Rees who started to pitch for St. Brainerd was wilder than a March hare and was taken out after the fourth and Gilchrist went in after that and pitched gilt edge ball. The following score will tell the sad tale of the downfall of Converse and his backers:

# LABOR HOSTS GATHER FROM OVER STATE

Convention of the State Federation  
of Labor Convened at the  
Opera House Today

## REPORT ON CREDENTIALS

President Dix Delivers His Annual  
Address and Names the Dif-  
ferent Committees

The first session of the convention of the State Federation of Labor was called to order this morning at 10 o'clock at the Brainerd opera house by Chairman F. G. Hall, of the local arrangement committee, who called upon Rev. Father D. W. Lynch for invocation. Mayor Con O'Brien was then called upon and delivered the address of ovation at the conclusion of which he was given a rousing welcome. Chairman Hall of the local arrangement committee, then turned the convention over to President Dix of the State Federation of Labor, who called upon Commissioner of Labor Williams, who made a few brief remarks.

Organizer Murray, of Carpenter's unions, of the United States, was another distinguished speaker of the morning. A. G. Brainbridge, of Minneapolis, another distinguished union man of the state also addressed the convention briefly while the credentials committee was getting ready to report.

AFTERNOON SESSION.

This afternoon the convention convened at 2 o'clock and one of the first matters considered was the report of the committee on rules of order. In these rules the one relating to the election of officers comes 9th so that this important piece of business will come near the close of the convention. The report of this committee was on motion unanimously adopted as read.

PRESIDENT'S ADDRESS.

Vice President Morrison took the chair at this point and the first order of business was taken up, report of officers. President Dix delivered his annual address and said:

"Ladies and gentlemen:—  
"Another year in the history of our now well developed organization having rolled around, it becomes my duty, and I may say my pleasure to appear before you and render to you an account of my stewardship of your affairs; and doing so I make no claim to a faultless record, but hope that my work may be considered as being that of one who has at least to the best of my ability and in a manner according to his best judgment, endeavored to be faithful to the trust so freely placed in him by the delegates to the last convention; and if in my own way I may have by some act of mine more firmly cemented the structure we as members of the Minnesota State Federation of Labor are seeking to build, I shall feel that my efforts have not been in vain, and I shall in the future, with pleasure and interest observe the still greater advancement of our organization which we all believe is bound to follow the noble efforts of our previous officers, and the attempts of the present officers to insure its stability. When your present officers were elected at New Ulm, our finances were such as would not allow for heavy expenses for organization purposes, and at the meeting of the Federation Council I suggested that the president try and secure volunteer organizers throughout the state. Shortly after I appointed volunteer organizers in the following cities: Garfield Morrison, of Mankato and vicinity; R. C. Kutz, of Brainerd; M. O. Saltz, of Winona; Brothers Douglas and Bly, of St. Paul; Van Lear and Dix, of Minneapolis; W. E. McEwen, of Duluth, who were instructed to do what they could to advance the cause of organization.

"Secretary McEwen and myself, having received an urgent call from the secretary of the Little Falls Mill Workers union, visited that city on the second Sunday in April. We found things in a deplorable condition, but after a heart to heart talk succeeded in getting about a hundred and twenty-five signers.

"I will state that in Minnesota we have a vast field for organization work.

"The saw mill workers of Minneapolis and Stillwater and elsewhere are in a deplorable condition. Also the miners of the great iron range. The same is true of many of the different trades throughout the state, and I would recommend that ways and means be devised whereby organizers can be put to work in different parts of the state at least part of the time. I wish at this time to call attention to the fact that the boycott placed by the International Flour

and Cereal Mill Employees and endorsed by the American Federation of Labor, upon the products of the Washburn-Crosby company of Minneapolis, is still on, and delegates, men and women sympathizers everywhere, should remember the same.

"Another boycott that is still on is the one declared by the Garment Workers against Robitshek, Frank & Hellers company, of Minneapolis. This firm locked out its employees some time ago. The employees, with the help of the several unions, formed a co-operative garment manufacturing company, and are at the present time doing a flourishing business. They manufacture what is known as the "Bell Brand" of overalls and other garments. There are other brands of union made garments manufactured in Minnesota, and I would suggest that all workmen everywhere should bear this fact in mind, and whenever possible wear manufactured union made garments manufactured in this state."

"In conclusion, I desire to extend my appreciation to the membership at large, to the volunteer organizers, the Federation Council, and to Secretary-Treasurer McEwen. Mr. McEwen, since his incumbency of the office, has disbursed hundreds of dollars and not a breath of suspicion has ever attached to him. He has brought to his office the practical knowledge gained in his intercourse of business during his incumbency of many minor positions he held in his union. He has solved many questions arising during his terms of office, and his knowledge and business ability have placed him high in the estimation of organized labor in this state.

"In closing, will state that I sincerely hope that the deliberations of this convention will be for the best interest of all toilers and that the coming years will be bright and prosperous, and that the course of the Federation will always be upward and onward."

President Dix then dwelt on the open shop and contended that while employers have the right to hire whom they please, labor at the same time claims the self same right to say as to for whom they shall sell their labor, and the price for which the same may be had. Both political parties, he said have ignored organized labor in the party platforms, the organized workers are a nonentity to their yes and of no consequence. The open shop is the question of the hour and it is the duty of all true union workers to do all in their power to counteract its evil tendencies.

Another important question discussed was legislation and the speaker

dwelt intelligently and forcibly upon the question.

Blue Label Convention.

The convention of the Minnesota Blue Label League was called yesterday afternoon at Trades and Labor hall by President Conrad. After the appointment of the committees one of the most important matters considered was the resolutions. A fuller report of this important convention will appear in tomorrow's issue.

**DR. A. W. CHASE'S NERVE PILLS**

The world is full of women whose daily life is one long struggle against diseases peculiar to their sex—whose days and nights are full of quiet, patient suffering. The head the seat of pain and pressure—the result of nerve depression and physical weakness brought on by uterine or ovarian trouble—the nerves on edge—inclined to laugh or cry at anything—an ever present dragging in the back, hips and limbs—a feeling of utter weariness—lassitude and despondency. To these people Dr. A. W. Chase's Nerve Pills are of incomparable value, having as they do the power to rebuild, to reinvigorate and resupply every organ, every nerve, every muscle with the lost energy, and to insure a complete return to health, strength and vigor again.

Mrs. John Bailey of Jackson St., Penn Yan, N. Y., says:

"I was told that Dr. A. W. Chase's Nerve Pills were a great nerve medicine, and as I needed one badly, I got a box. My nerves were very weak—I lacked ambition and strength and my heart action was very weak. I used the pills as directed and they made my nerves quiet and steady—the heart action strong and regular and the appetite good, my sleep became restful and I feel altogether like another person. I think as a remedy in female complaints as well, they are grand, curing the headaches and heavy, dragging feeling rapidly and easily—this I know from experience, and I am glad to recommend them." 50c a box at dealers or Dr. A. **WE LENGTHEN LIFE**  
AND CURE DISEASE  
**By Supplying Nature Power**  
Costs 8 Cents a Day.  
For ages men have tried to cure disease and failed. Instead of helping Nature, they have helped Disease and Death with alcohol and medical poisons—the cemeteries fill fast.  
Our Chemists commenced working 10 years ago to discover how to HELP Nature. At a cost of \$50,000.00 in cash WE HAVE SUCCEEDED in learning how to make a Chemical-Medical Preparation that SUPPLIES NATURE WITH POWER to drive every MICROBE, every DISEASE GERM, out of the system. We call it  
**NU-TRI-OLA**  
because it is the very ESSENCE OF LIFE. It feeds, strengthens, and makes the body "NEW ALL OVER."  
To prevent disease or regain health, Nature must perform four things perfectly. Digest, Assimilate, Eliminate, Construct. Only Perfectly Digested and Assimilated food supplies life. NUTRIOLA digests food naturally and perfectly. Perfect Assimilation follows perfect Digestion. NUTRIOLA makes Red Corpuscles—rich in building material.  
NUTRIOLA makes Leucocytes—White Corpuscles—strong and vigorous and they quickly destroy every "germ" and "microbe." They are the only germ destroyers Nature uses in the human body—that's a scientific fact.  
NUTRIOLA makes the system absorb great draughts of Oxygen through the re-vitalized lungs and the millions of pores. Oxygen is the fuel of life.  
The organs of Excretion eliminate the dead and diseased cells and tissues and Nature builds new cells in their place. NUTRIOLA makes new blood and from the blood Nature makes new brain, nerve, lung, liver, heart, kidney, bone and muscle cells. It's the same natural law that makes plants grow when supplied with chemical nutrition, applied for the first time to the human body in treating disease. The vigor of youth, the power of maturity, the strength of perfect life, courses through your system and you KNOW that Nutriola & Nature has made you "new all over."  
Whatever your disease may be  
**WE WILL GUARANTEE TO CURE YOU**  
and we will cure you, or it won't cost you a cent.  
NUTRIOLA costs you 8 cents a day. Our Staff of Skilled Physicians can make a correct diagnosis of your case, however far you may be away. They have a method and means of doing this that never fail. They tell you just what to do in even the worst cases. Their services are FREE.

**TO REMAIN NEUTRAL**  
CHICAGO TEAMOWNERS' ASSOCIATION DECIDES TO KEEP OUT OF THE STRIKE.  
FAVORED BY A BIG MAJORITY  
ONLY THREE OF THE OWNERS DECLARED AGAINST COURSE DECIDED UPON.  
Chicago, June 12.—The Chicago Teamowners' association, an organization employing 8,000 union teamsters, has decided to remain neutral in the present labor struggle now in progress in Chicago. Ever since the commencement of the teamsters' strike the Teamowners' association has been desirous of having the question of making deliveries to strike-bound houses submitted to arbitration. The teamsters by a unanimous vote refused to agree to the proposition and for a time it was believed that the teamowners would force a strike of these 8,000 drivers by ordering them to make deliveries to firms involved in the strike. In an effort to learn the sentiment of the members of the association regarding the matter it was decided to take a referendum vote on the question. This vote was completed Sunday and resulted in 155 of the members voting to remain neutral during the trouble and in three members voting to compel the teamsters to obey orders. The decision reached by the owners means that there will be no strike of these men and the threatened expansion of the trouble in this direction has been averted. The Teamowners' association will hold a meeting Monday night, when an official announcement of the result of the referendum vote will be made.  
Negotiations for peace, which promised for a time last week to be successful, have apparently been abandoned for the present, as both sides are so far apart on any plans of settlement by mediation that further efforts in this direction are regarded as useless. Unless both sides to the trouble show a disposition to offer concessions any conciliatory settlement of the struggle appears to be a long way off.  
One of the causes for the prolongation of the present strike is said to be the political ambitions of several Chicago union leaders. At least three of the Chicago labor leaders desire to be president of the national organization of the teamsters. President Shea is also desirous of re-election and these four men, it is asserted, have been making every effort possible to control the Chicago delegates to the next convention, which will be held in Philadelphia Aug. 7. Seven of the local unions elected delegates to the convention Sunday. Of these delegates three were instructed by Shea and the other four were uninstructed. With the election of these delegates out of the way, it was said that the union leaders would get together and bring about a settlement of the strike. President Shea declared that there was no truth in the story.  
**SERIOUS RACE RIOT.**  
One Man Killed and Four Others Badly Wounded.  
Charleston, S. C., June 12.—As a result of a race riot that occurred late Saturday night on the Aiken and Augusta trolley line, about one mile on the South Carolina side in North Augusta, Peter Renew, white, is dead; Charles Willis, negro, and E. F. Fishburne, conductor, are mortally wounded; Morris Willis, negro, and Max Boyd, white, are seriously injured. In the inquest over Renew it was shown that Boyd started the trouble by cursing Willis, a negro, who turned and cut him. The car was stopped to put Willis off and he began to fire into the car. There were eighty-seven passengers and several produced pistols and at least sixty shots were fired. The coroner's verdict charged Willis with killing Renew and names Milligan Willis as accessory.  
**HIGHEST STAGE IN HISTORY.**  
Wisconsin River Breaks High Water Record at Portage.  
Portage, Wis., June 12.—The Wisconsin river reached its highest stage in history Sunday, being above 12.2 feet. Water is rushing over the plank road two miles south, threatening the Milwaukee road tracks. Over 100 feet of track on the Madison and Portage branch is washed out, but the main line is unharmed. The Madison and Portage line is covered with about a foot of water for a distance of a half mile. A portion of the city levee at Bardens is washed out. The entire lowlands in that vicinity are under water. The levee built by the state remains intact, but several weak places threaten destruction. The water stood at 18.6 feet at Kilbourn Sunday, the highest known in years. The river continues slowly rising.  
Many Autos Destroyed by Fire.  
New York, June 12.—Nearly 100 automobiles belonging to various department stores were destroyed at night in a fire in the garage of the Ranier Vehicle Equipment company at Ninth avenue and Twenty-seventh street. The loss on the machines is estimated at \$350,000, on the plant \$75,000, other property at \$100,000.

**FRANK G. BIGELOW IN PRISON.**  
Former Milwaukee Banker Taken to Federal Penitentiary.  
Leavenworth, Kan., June 12.—Frank G. Bigelow, the former Milwaukee banker, was brought to the United States penitentiary at Fort Leavenworth, at 7:40 p. m. John Spectate, a counterfeiter under a five-year sentence, was brought along as a fellow prisoner with Bigelow and they were in charge of Andrew Johnson and Charles Kelley, deputy marshals.  
Gordon Bigelow, a son, and Dr. Bigelow, a brother, living in Chicago, accompanied Bigelow.  
Bigelow bore up fairly well during the trip except at Moline, Ill., where he broke down and wept. At another point the son, Gordon Bigelow, broke down and the marshals informed him he was having a bad effect on his father. Bigelow seemed anxious to avoid the gaze of curious people and reporters. He wore an old slouch hat and was not nearly as neatly dressed as the counterfeiter who was brought with him.  
On making the turn in the walk on the riverside driveway at Fort Leavenworth when the penitentiary loomed up in front of the party the counterfeiter showed a disposition to weaken. When he trembled Bigelow spoke words of encouragement to him. Bigelow was not in jail at any time since his defalcation was discovered, and when the keys were turned on him after passing into the penitentiary he remarked that it was the first time he was ever in prison.  
Bigelow pleaded guilty at Milwaukee Saturday to an indictment of ten counts charging violation of the national banking laws and was sentenced by Judge Quarles to ten years in prison.  
Warden McClaughrey remained upstairs in his office and no special ceremony was shown. Bigelow gave his name as Frank G. Bigelow, aged fifty-eight. He was searched, and some plain jewelry and a small sum of money taken from him.  
There is a demand for prisoner clerks and Bigelow will have a position of this kind. If his health is not good Bigelow may after a few weeks be assigned to Captain Carter's old position of prison hospital clerk. At first he will be thrown in contact with negroes, Indians and all kinds of prisoners.  
**"GOD PITY THE EDITORS."**  
Will Be Fed on Ancient Buffalo Meat in Oklahoma.  
Washington, June 12.—Secretary Hitchcock has received a dispatch from Superintendent Noble of the Ponca Indian agency in Oklahoma saying no buffalo will be slaughtered for the celebration in honor of the National Editorial association at the 101 ranch, nor would anything inhuman be permitted. He says one old male buffalo was killed to be fed to the editors and adds: "God pity the editors."  
Bliss, Okla., June 12.—Forty thousand people were entertained by Miller Bros. at the 101 ranch Sunday, the visit of the National Editorial association to the ranch being made the occasion for a buffalo hunt, a buffalo dinner and an Indian celebration. During the performance the supports of a section of seats about 200 feet in length collapsed, throwing many persons to the ground and slightly injuring several.  
**IN A HOPELESS POSITION.**

**BATTLE NEAR JACKSON'S HOLE.**  
Two Cattle Rustlers and One Settler Killed and Many Wounded.  
Blackfoot, Ida., June 12.—A bloody battle has taken place near the edge of Jackson's Hole, Wyo. A number of cattle rustlers rounded up about ninety head of fine steers and started toward the most favorable railroad point, the intention being to gather more cattle en route.  
The ranchers to whom the cattle belonged organized a posse and pursued the outlaws, and there was a running fight for sixty miles. Two of the rustlers were killed and also one of the settlers and numerous wounds were sustained. The names of the killed outlaws are given as Robinson and Lewis. The name of the rancher was not learned.  
**Beware of Ointments for Catarrh that Contain Mercury.**  
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Piles can be cured by internal treatment. To get at the cause—that is the secret, and that is why Dr. Perrin's Pile Specific is so universally successful in its results. It increases the flow of digestive juices in the stomach—accelerates the action of the liver. With congestion of the liver removed and constipation relieved, the two chief and distinct causes of piles are reached and conquered.  
**Dr. Perrin's Pile Specific**  
The Internal Remedy  
For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.  
Certain in its results, this remedy will cure the most obstinate case of Piles.
